

TRUVÉE™

Fittingly derived from the French verb 'to find,' each bottle of Truvée is a celebration of women who follow their passions, enjoy fulfilment beyond the day-to-day and go after what matters most.

Created by a team of women united by their passion for wine, Truvée is a collaboration of the female spirit at every step of the way.

VINTAGE CONDITIONS

A very dry winter followed by a mild and dry spring set the vines up for a good growing season. Fruit set was good, resulting in slightly higher than average yields. A mild January, with moderate rainfall, allowed for optimum flavour development and an excellent vintage overall.
